VARSHA SHIVA KUMAR

New York, NY | varshashiv555@gmail.com | (646) 707-7039 | linkedin.com/in/varsha-shiva

Financial Analyst | FP&A | Treasury | Corporate Finance

SUMMARY

Corporate Finance MBA candidate (GPA 3.67) with hands-on FP&A, treasury and valuation modeling: driver-based budgets, variance analysis, rolling forecasts, a 13-week cash flow model, Power BI dashboards and DCF. Internship experience in AP/AR, month-end close and reporting. Bloomberg-certified; advanced in Excel.

EDUCATION

Pace University — New York, NY
MBA, Corporate Finance | GPA: 3.67/4.00 (current) — Expected Jan 2027 — Expected Jan 2027

Mount Carmel College Autonomous — Bangalore, India
BBA, Finance | First Class with Distinction — Apr 2024

Relevant Coursework: Financial Statement Analysis, Financial Management, Creating Value through Finance, Investment Portfolio Management, International Finance & Forex

EXPERIENCE

Yusen Logistics Pvt. Ltd. — Bangalore, India
Finance & Accounts Intern — Feb 2023 – Apr 2023

- Assisted with AP/AR processing, month-end close and financial reporting as part of the finance and accounts team.
- Helped streamline finance workflows on a process-improvement project, cutting turnaround time by approximately 30%.
- Created PowerPoint decks and training videos documenting business processes, working with teams across departments.

PROJECTS

FP&A Budget vs Actual & Rolling Forecast Model | Excel & Power BI

- Built a driver-based budget and monthly budget-vs-actual Excel model for a simulated $52M retailer (15 integrity checks).
- Built a 12-month rolling forecast (Base/Upside/Downside) with price/volume and EBITDA bridges; isolated a $0.65M shortfall.
- Designed a 4-page Power BI dashboard (star schema, DAX) that refreshes directly from the Excel model.

13-Week Cash Flow Forecast & Liquidity Model | Excel

- Built a direct-method 13-week cash flow model for a simulated $52M retailer with AR collection curves, inventory lead times, vendor terms and automated revolver draw/sweep.
- Ran Base/Downside/Upside scenarios; pinpointed a Week 7 liquidity low and a Downside covenant breach of up to ~$90K, resolved by deferring $250K of capex; built a weekly forecast-vs-actual variance review.

Apple Inc. (AAPL) – DCF Valuation & Equity Research | Pace MBA

- Built a five-year unlevered DCF in Excel, forecasting segment revenue, gross margin, NOPAT and free cash flow.
- Calculated 9.76% WACC (CAPM); 3.0% terminal growth and 20x EV/EBITDA exit gave ~$2.82T EV, $196.42/share vs. $331.43.
- Ran sensitivity, bear/base/bull and reverse DCF analyses: market price implies ~6.97% perpetual FCF growth vs. a 3.0% base.

Dexter.Co – Brand Strategy & Business Development | Pace MBA

- Built a pet-care brand from concept to launch: market research, positioning, business model, digital marketing and website.

Cryptocurrency's Impact on Traditional Banking | BBA Research

- Surveyed 150+ respondents and analyzed how blockchain and digital assets affect traditional banking services.

LEADERSHIP

Beat Battalion — Bangalore, India
Campus Representative — Jan 2021 – Sep 2021

- Led campus marketing and outreach for Beat Battalion events, promoting initiatives to 100+ students.
- Coordinated event planning and execution, managing logistics, timelines, stakeholders, and art and décor.
